

INTERNSHIP REQUEST FORM

While classroom based learning is the foundation for a quality educational experience, we at NMSU College of Business recognize that students who have work experiences, in which they can relate the principles learned in the classroom to real world business situations, ultimately develop a richer understanding of their field of study. The Insurance Studies Program offers students the opportunity to acquire experience based knowledge through participation in internship and co-op work opportunities. Those students who take advantage of these opportunities may also earn academic credit toward their degree by completing an academic component, supervised by a faculty member.

HOW TO PARTICIPATE

If you are interested in participating in an insurance internship please, complete the form below and return it to Al Berryman, GU 409. (email is alberry@nmsu.edu)

Student Name _____

Class _____ Expected Graduation Date _____
